The Social "Threatwork": Connecting Women's Exclusion from STEM Social Networks to Implicit and Explicit Gender Stereotypes

MAY 12, 2023
10:30 AM - 11:30 AM
MC 5501

When, why, and with what effect are women sometimes excluded from informal social networks in STEM fields? Drawing on social identity threat and structural hole theories, a series of studies assess social network dynamics that may limit women's full inclusion in STEM circles.
